## PROFESSIONAL HARD DISK OFFICE SHREDDER SYSTEM

Nowadays more than in the past, the safe protection and destruction of confidential digital information have become crucial and strictly ruled by specific law and standard, so it is the choice and adoption of a reliable system in order to manage the data destruction correctly. The CH-M200 HC specifically designed for office environments; through its solid hardened steel knife it is able to shred the hard drive and its internal components including the data disk, simply pushing a button.

Compliance with safety requirements of CE, equipped with hdd insertion slot security switch, auto reverse and cut-off to avoid shredding jam, bin-full auto sensor, cabinet door open/closed sensor and dust proof closed housing.

The CH-M200 HC shredding module is a shredder solution that meets DIN 66399 security level H4 and the guidelines regarding the physical destruction of data contained on hard drives. It shred all formats and sizes of hard drives with an hourly capacity of HDD shredded above 300 Pcs/ hr.

The CH-M200 HC hard drives crushing device represents the last step in the destruction of data stored in hard drives, ensuring that your hard drives will be definitively destroyed and the supports will become unusable, ready to be recycled.
