**Dimensions:** 17.94" W x 15.23" H x 29.22" D  
(456mmW x 387mmH x 742mmD)

**Certifications:** Emissions - FCC Class B, CE Safety - UL, UL-C, CE

**Warranty:** One year

### Maximum Capacity

With ADL-MAX, Bravo II's capacity increases from 50 discs to 325 discs. BravoPro's capacity increases from 100 discs to 350 discs. It uses advanced robotics to transport discs from the four integrated input bins into and out of the burning and printing mechanisms of the Bravo II or BravoPro.

### Maximum Reliability

The integrated robotics have been designed for continuous-duty, high-volume operation in even the most demanding production environments. In factory life tests of ADL-MAX's robotics, over 250,000 discs were transported without a single missed pick.

ADL-MAX connects to any Windows® XP/2000 based computer via USB 2.0. A cable is included along with RoboPrint and PrimoDVD software to control ADL-MAX's robotic function.

### Maximum Value

Compare other high-capacity disc duplicators and autoprointers and you'll see that the ADL-MAX combined with a Bravo II or BravoPro is the best value available for burning and printing several hundred discs at a time.
