

COPYBOX 1 BLU-RAY

Introduction - Features - Specifications

INTRODUCTION

The CopyBox 1 Blu-Ray is a stand-alone Blu-Ray duplicator, suitable for users who regularly need to duplicate recordable BD's or DVD's. The system has one Blu-ray reader and one Blu-Ray writer. The CopyBox 1 operates stand-alone but the USB PC connection also allows the two CopyBox drives to be accessed from a PC as external drives. An eSata connection is available to connect an external hard drive to the CopyBox 1.

The CopyBox 1 can make one BD duplicate at once at max 12x speed. (DVD max 16x speed) This operation is completely stand-alone and does not require any software or PC, the CopyBox 1 Standard is ideal for fast and easy duplication of any common recordable BD or DVD. The fast writer can duplicate a BD within 9 minutes (DVD 5 minutes). This results in a production capacity of 6,5 BD's or 11 DVD's per hour.

The CopyBox 1 functions are selected using the LCD display and control buttons on the front of the unit.

FEATURES
