

## Product features

- CD Jewel case standard & slim, DVD Amaray, Blu-ray & Nintendo DS cases
- Professional wrap quality
- Better finish than shrink wrapping
- Table top unit – easily transportable
- Wraps up to 250 cases per hour
- Low cost investment
- Semi-automatic operation

Operators wishing to wrap small to medium quantities of CD and DVD cases can now achieve a quality finish equal to the standard of more expensive finishing machines, with the CDC100 series of overwrappers from JMV Robotique.

Available for standard jewel cases (CDC100), slim line jewel cases (CDC140), DVD "Amaray" type cases (CDC160), Blu-ray cases (CDC170) and Nintendo DS cases (CDC180), these tabletop units are dedicated to small or medium scale production of discs and are a cost effective solution providing professionally finished packaging for short run work, at a tenth of the cost of industrial equipment.

### Easy to use

The semi-automatic operation is simple and effective. A pre-cut sheet of polypropylene wrapping material is placed on the manual platform. The case is simply placed on the pre-cut sheet and the operator closes the cover, which tensions the wrapping and makes the first heat-seal. The case is then placed into the hopper for the second fold and seal operation, which is fully automatic. The result is a professionally folded and sealed case.

The sealing temperature is electronically controlled and can be set to the desired value. An electronic security system stops the machine operating in the case of incorrect usage.

Polypropylene wrapping material can be supplied in boxes of 10,000 sheets.

The result is a professionally folded and sealed CD or DVD case suitable for even the best retail presentations and all this for a fraction of the cost of outsourcing.

### Retail Ready Discs

The CDC100 series give a wrapping finish equal to that of CDs and DVDs found in any retail outlet. Whilst shrink wrapping leaves cases with rough, unsightly seams, the CDC100 series of wrappers provides a neatly folded and sealed package.

# CDC100 Series

Media case cellophane overwrapper

Specification	CDC100	CDC140	CDC160	CDC170	CDC180
Case handling:	Standard CD Jewel cases	Slim line CD Jewel cases	DVD "Amaray" cases	Blu-ray cases	Nintendo DS cases
Throughput:	Up to 300 per hour	Up to 250 per hour	Up to 200 per hour	Up to 200 per hour	Up to 300 per hour
Hopper capacity:	15	30	15	15	8
Operational voltage:	110/220 VAC 50/60Hz (selectable)	110/220 VAC 50/60Hz (selectable)	110/220 VAC 50/60Hz (selectable)	110/220 VAC 50/60Hz (selectable)	110/220 VAC 50/60Hz (selectable)
Power Consumption :	100w	100w	100w	100w	100w
Dimensions (WxHxD):	470mmx250mmx580mm 18.5" x 10" x 23"	470mmx250mmx580mm 18.5" x 10" x 23"	556mmx310mmx570mm 21.9" x 12.2" x 22.4"	556mmx310mmx570mm 21.9" x 12.2" x 22.4"	470mmx250mmx580mm 18.5" x 10" x 23"
Weight:	52.8lbs (24kg)	52.8lbs (24kg)	59.52lbs (27kg)	59.52lbs (27kg)	52.8lbs (24kg)
Wrapping material:	Bi-Orient. Polyprop. (OPP) (sheets sold separately)	Bi-Orient. Polyprop. (OPP) (sheets sold separately)	Bi-Orient. Polyprop. (OPP) (sheets sold separately)	Bi-Orient. Polyprop. (OPP) (sheets sold separately)	Bi-Orient. Polyprop. (OPP) (sheets sold separately)
