Excelsior II™
CD / DVD InkJet Printer

ADR AG
Advanced Digital Research

Features:

- Single Ink Cardridges
- Changeable printheads
- High-Speed Autoloader
- Maximum throughput

For the professional user and service company there is no better and cost effective machine than the Excelsior II autoprinter. Combined with an industrial Autoloader from ADR you get a fully functional disc printing machine which satisfies the most demanding client. Due to the single ink system there is no need to ever waste ink or discs again. With a top printing result you can achieve costs per disc of lest than 2 cents per disc.
