UD2601-L4 UDISC

Super DVD Duplicator

Sharing digital photos with friends and family is so easy and entertaining when you pair your DV or digital camera with the uDisc. Cherish your memories with the help of reliable DVDs. Just in One Touch, you can easily backup all the files from your DV or digital camera without complex PC software setting.

SUPPORT DISC SPEED

8x	8x	6x	8x	6x	6x	24x	24x
DVD-R	DVD+R	DVD-RW	DVD+RW	DVD-R DL	DVD+R DL	CD-R	CD-RW

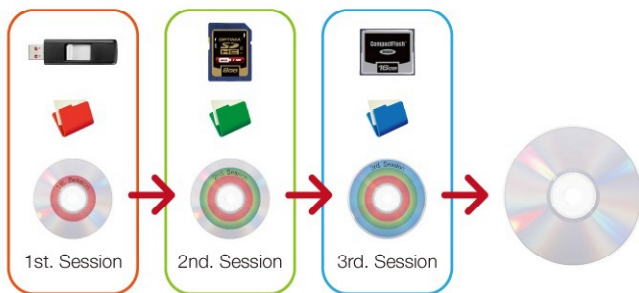

Easy 3 Steps to Backup

Enjoy computer-less DVD burning by connecting right to your DV or digital camera via USB cable. One-Button burning, you can easily record the DVD.

Support Multi-Session Copy

Collect many data into one disc. As long as the disc has free space, you can keep adding data to the same disc.

Intelligent Disc-Spanning Function

Your file size is bigger than a single disc?

Smart Disc-Spanning function will automatically span and copy your file into multiple discs. Backup everything at anytime without the limitation of file size.
