Copy & Print CD's and DVD's at the touch of a button

High quality interchangeable printers

16x DVD recording
including dual layer capabilities

Sturdy and compact design

660 disc capacity

Standalone
or
Network option with DiscPilot
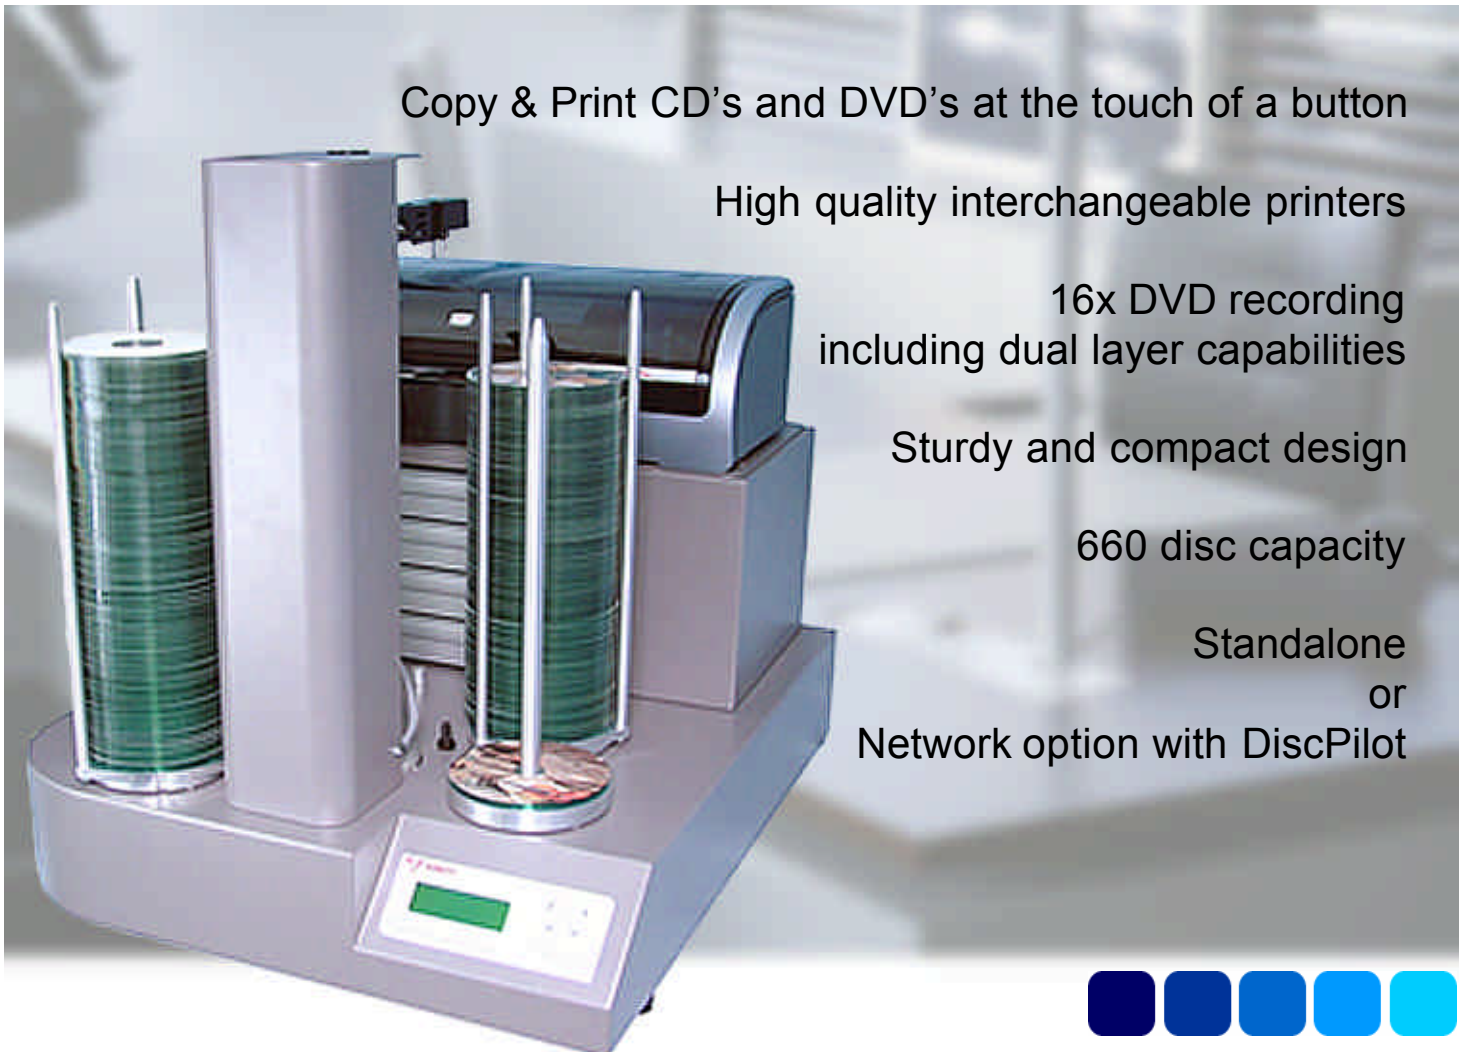

Manually loading CDs and DVDs into a duplication tower then into a printer can be a time-consuming and laborious task, especially if your requirement for discs exceeds more than ten at a time. The new Storm**XC** CopyDisc Platinum Series offers the perfect solution affording users the ability to burn and print up to 660 discs at any one time.

Designed to offer maximum versatility, the Storm**XC** CopyDisc Platinum duplicator, can now be fitted with a variety of industry-leading printers to deliver the very best CD/DVD publishing solutions on the market including; affordable photo quality inkjets, high-speed thermal printers and thermal re-transfer printers offering the best retail quality output possible. Whatever printer you decide on, you'll never be tied to it, as all printers are easily interchangeable.

Fitted with quality DVD±R drives you can always be assured of the latest burning technology. In standalone form (no PC required), simply load the master disc onto the Storm**XC**'s input spindle and the robotic arm will pick up and place the disc into the top drive. Once burnt, each disc is then placed systematically into the waiting printer. You can choose whether you want to print discs, copy discs, or do both in the same job.

The Storm**XC** CopyDisc Platinum Series has been specifically designed to fit with any environment. Its small footprint means that it will sit on most workbenches or desks and combined with the also sturdy and reliable metal framework construction the Storm**XC** CopyDisc Platinum Series is the perfect solution for the professional production house.
