ICE XC

CopyDisc Platinum Series

Prints CD's and DVD's at the touch of a button

High quality interchangeable printers

Sturdy and compact design

660 disc capacity

Network enabled with DiscPilot

Manually loading CDs and DVDs into a printer can be a time-consuming and laborious task, especially if your requirement for printed discs exceeds more than ten at a time. The new Ice^{XC} CopyDisc Platinum Series offers the perfect solution affording users the ability to print up to 660 discs at any one time.

Designed to offer maximum versatility, the new Ice^{XC} CopyDisc Platinum can be fitted with a variety of industry–leading printers to deliver the very best CD/DVD printing solutions on the market. For photo-quality inkjet printing, choose the Puma, the most cost effective inkjet printer available. Or take the Teac P-55, featuring the very latest CD/DVD printing technology, delivering the best retail quality output possible. Choose the Prism thermal printer for high-speed, low cost printing. Whatever printer you decide on, you'll never be tied to it, as all printers are easily interchangeable with the appropriate printer plate.

Ice^{XC} CopyDisc Platinum printers are operated using DiscPilot advanced networking software. There is no drive fitted so the system is run directly from a PC on a network. This easy to use yet sophisticated and versatile CD and DVD printer management software system provides multiple users with access to one of Verity Systems range of automatic printers. DiscPilot allows an Ice CopyDisc to act as a peripheral device across a network.
